Summary

With over 10 years of experience as a frontend developer, I focus on creating web solutions that are user-friendly, accessible, and high-performing. I have worked extensively with React, Typescript, LESS, and GraphQL, and have experience collaborating with international teams on new product launches.

In my previous roles at Earnest Inc. and Student Loan Hero, I developed new product features, ran A/B tests, redesigned and refactored applications, and improved frontend performance. My technical skills include HTML, CSS, VanillaJS, ES6+, Webpack, and Figma. I have strong design knowledge and understand how to work effectively with designers. I am dedicated to learning new technologies and improving my skills in web design, UX, and self-development.

Skills & Languages

- **Technologies:** React, Javascript, Typescript, HTML, CSS, Webpack, GraphQL, SASS, LESS, Wordpress
 - **Version Control:** Git, GitHub, GitLab
